ST 81 PROFILE SHEET

This profile is 81mm on top which incorporates a 61mm PVC insert and a 29.7mm riser.

Due to the chamfered tail this profile can be fitted direct to concrete or timber as well as floor coverings such as carpet, carpet tiles and vinyl.

When fitting over soft floor coverings the total thickness should be no more than 9mm otherwise the stair nosing will wave on the step at every fixing point.

Standard finish is 15 micron clear anodising.

Drilled or punched at 250mm spacings.

Available with or without end caps.

Internal use.

Slip Rating = P4

Please have the profile approved by the certifier / council prior to ordering, most do not accept this profile due to its shape and size however it may be best suited to the shape of the step.
